

AMAN VERMA

B.Tech - Civil Engineering

+91-7007333391 | aman.verma.civil2003@gmail.com | aman-verma-ce

PROFILE SUMMARY

Final Year Civil Engineering student with practical experience in structural design and drafting, proficient in Python, JavaScript, and React. Currently developing an AI-powered full-stack solution for automated rate extraction from DSR, aiming to optimize construction cost estimation and workflow.

EDUCATION

B.Tech in Civil Engineering

2023 – Present

Shri Ramswaroop Memorial College of Engineering & Management, Lucknow, India

WORK EXPERIENCE

AutoCAD Intern | Shri Balaji Infotech Experts

Sep 2024 – Sep 2024

Shri Ramswaroop Memorial College of Engineering & Management

- Acquired hands-on experience in drafting and detailing civil engineering layouts utilizing AutoCAD.
- Improved drafting efficiency and applied theoretical design parameters to practical floor plans and elevations.

Structural Design Trainee | STAAD Pro Technical Training

Sep 2025 – Sep 2025

Shri Ramswaroop Memorial College of Engineering & Management

- Performed comprehensive structural analysis and load testing simulations using STAAD Pro.
- Gained intermediate proficiency in evaluating structural integrity and modeling construction frameworks.

Artificial Intelligence & Machine Learning Trainee

June 2026 – Present

Shri Ramswaroop Memorial College of Engineering & Management

- Undertaking intensive technical training focused on foundational AI/ML architectures and Generative AI frameworks.
- Gaining hands-on familiarity with core mathematical principles, baseline models, and generative applications.

PROJECTS

Title	Description
AI-Powered System for Rate Extraction (BOQ)	Developing an automated full-stack software application using Python, JavaScript, and React to extract and compute rates from the Delhi Schedule of Rates (DSR), streamlining the Bill of Quantities (BOQ) estimation process. Authored a review paper on the methodology, which was accepted for publication and presentation in an engineering conference.

SKILLS

TECHNICAL SKILLS – MACHINE LEARNING | PYTHON | JAVASCRIPT | REACT | AUTOCAD | REVIT | STAAD PRO | ETABS | OPTUM G2 | QGIS | MS PROJECT | MS EXCEL | MS POWERPOINT | MS WORD

SOFT SKILLS – Team Management | Punctuality | Quick Acquisition of New Software | Effective Communication

CERTIFICATIONS & ACHIEVEMENTS

- 1st Place, AutoCAD Design Competition (Participated in 2 events) (2025)
- 2nd Place, Group Discussion Competition (Debate event participant) (2025)
- Paper on AI rate extraction methodology accepted for presentation in an engineering conference.
- Participated in Industrial Visits to: RSAC, L&T, Adani Cement, UltraTech Cement, Excilla Kutumb Site.
- Attended 14 specialized guest lectures bridging curriculum and industry gap.
- Organizing Member, College Extracurricular Technical/Cultural Event.
